

Privacy Policy

Effective date: April 7, 2026

This Privacy Policy describes how GetMeA (www.getmea.org), operated by Music App LLC (“GetMeA”), collects, uses, and handles information when you use the GetMeA mobile application (iOS and Android) or website. By using GetMeA, you acknowledge this policy.

The super important stuff you usually skip:

GetMeA is a list of musicians who are willing to play freelance gigs. The only requirement to be included in the list include your general location, what you play, must be over 18 years of age and be willing to get called upon to play. If you are on the list, you are saying that you can play a gig on a professional level. Listings that have no subscription were collected from publicly available lists found online. No information is otherwise sold or shared. Please understand that no one has been vetted in terms of skill or professionalism. It is recommended that you use this list to contact people you've already met or that you already know the reputation of. This App is maintained by Music App LLC. If you found you're listed in error and wish to be removed from the list, please sign in to getmea.org or email support@getmea.org

1. Data Controller

The data controller for personal information collected through GetMeA is:

Music App LLC

Based in Toledo, Ohio, USA

Email: support@getmea.org

2. Information Collected

Account and Profile Information

When you create an account or complete your profile, the following information is collected:

- First and last name*
- Email address*
- Password* (stored as a one-way cryptographic hash — never stored in plain text)
- Phone number
- City, state, and zip code*
- Professional title and bio
- Website URL
- Profile photo (stored as JPEG, PNG, GIF, or WebP, max 10 MB)
- Musical instruments, genres, and abilities
- YouTube video links

- Source or referral origin (e.g., which OAuth provider was used to create the account — stored internally and not displayed publicly)

*This information is required in order to create and locate your unique profile.

All profile fields are collected regardless of subscription status. Which fields are displayed in your profile to other users depends on subscription status as detailed herein.

Payment Handle Information

Users may optionally add payment handles for Venmo, Cash App, and PayPal. The edit interface for payment handles is available to subscribers only. Handles stored in your profile are displayed to other users only when you have an active subscription. GetMeA stores only the handle identifier. No payment card numbers, bank account details, or transaction records are collected or stored.

Location Data

The city, state, and zip code from your profile are geocoded to latitude and longitude coordinates using a third-party geocoding service. These coordinates are used exclusively to power location-based search. Coordinates are not displayed publicly and are recalculated when your address changes.

Device and Session Information

Each time you sign in, a device session record is created containing:

- A randomly generated session token
- Device name (e.g., “iPhone 15” or “Chrome on macOS”, provided by the app or browser)
- IP address at the time of sign-in (retained on the session record)
- Approximate city and country resolved from the IP address via a third-party geocoding service (resolved asynchronously after sign-in)
- Device fingerprint — a stable identifier derived from your browser or app, used to recognize returning devices and reuse sessions rather than creating duplicate entries
- Client application type (mobile app, web app, or other)
- Sign-in count and timestamps (first sign-in, last sign-in, last request)

Active sessions can be viewed and deleted at any time from within the app. Signing out immediately and permanently invalidates the session token.

OAuth Login Information

If you sign in with Google, Apple, or Facebook, GetMeA receives and stores:

- The OAuth provider name (e.g., “google”)
- Your unique identifier at that provider

- The email address provided by the OAuth provider
- Your display name as provided by the OAuth provider

This information is used only to create or link your account and is not shared with other users.

YouTube Links

When you add a YouTube video link to your profile, GetMeA makes a server-side request to YouTube's oEmbed API to retrieve the video title. The video URL is transmitted to YouTube during this request. YouTube's [Privacy Policy](#) applies to that interaction.

Support Communications

When you submit a support request, GetMeA collects your name, email address, subject, and message. This information is used solely to respond to your inquiry and is retained for operational purposes.

3. How Information Is Used

- To create and manage your account and authenticate your identity
- To display your profile in the musician directory
- To power search and filtering by instrument, genre, location, name, and ability
- To process subscription payments and manage billing status via Stripe
- To maintain session security and allow you to manage active devices
- To identify returning devices and avoid duplicate session records
- To display an approximate sign-in location in your active sessions list
- To respond to support requests
- To protect the service against automated abuse via Cloudflare Turnstile

4. What Other Users Can See

Profiles in the musician directory are accessible to all authenticated users of the app. The server API returns all profile fields for all users; the app applies the following display rules:

- **All accounts:** Full name, email address, phone number, city, state, zip code, instruments, genres, and abilities
- **Subscribers only:** Profile photo, title, bio, website URL, payment handles (Venmo/Cash App/PayPal), and YouTube links

5. Third-Party Services

Stripe

Subscription billing is handled by [Stripe](#). When you subscribe, you are redirected to Stripe's hosted checkout page. Payment card data is entered directly into and stored by Stripe; it is never transmitted to or stored on GetMeA servers. GetMeA receives and stores only a Stripe customer ID, subscription ID, subscription status, and subscription period end date.

OAuth Providers (Google, Apple, Facebook)

If you use social login, authentication is processed by the selected provider. Their respective privacy policies govern the data they collect:

- [Google Privacy Policy](#)
- [Apple Privacy Policy](#)
- [Meta \(Facebook\) Privacy Policy](#)

Geocoding Service

Profile addresses and device IP addresses are resolved to coordinates or approximate locations using a third-party geocoding service. Only the resolved output is stored; the original IP address is also retained on the device session record as described in Section 2.

Cloudflare Turnstile

The sign-up and support forms use Cloudflare Turnstile for bot protection. Cloudflare may collect technical information during challenge verification. See [Cloudflare's Privacy Policy](#).

YouTube

When you add a YouTube video to your profile, the video URL is sent to YouTube's oEmbed API to retrieve the title. See Section 2 (“YouTube Links”) and [Google's Privacy Policy](#).

6. Cookies and Similar Technologies

The GetMeA server API does not use cookies. Session authentication is handled via a bearer token transmitted in request headers.

The GetMeA website may set cookies through third-party services embedded in the page. Specifically, Cloudflare Turnstile (used on the sign-up and support forms) may set cookies as part of its bot-detection mechanism. No first-party analytics or advertising cookies are used.

7. Do Not Track

GetMeA does not use cross-site tracking technologies. Accordingly, browser Do Not Track (DNT) signals do not change how the service operates.

8. Data Sharing

Personal information is not sold. Information is disclosed to third parties only:

- As necessary to operate the services described above (Stripe, OAuth providers, geocoding service, Cloudflare, YouTube oEmbed API)
- If required by applicable law, court order, or governmental authority
- To protect the rights, property, or safety of GetMeA, its users, or the public

9. Your Rights and Choices

Depending on your location, you may have the following rights regarding your personal information:

Access and Portability

You may request a copy of the personal information held about you.

Correction

You may update most profile information directly within the app. Additional corrections can be requested via support.

Deletion

You may request deletion of your account and associated personal data. Certain information may be retained where required by law or for legitimate operational purposes (e.g., support ticket records, Stripe transaction references).

Restriction and Objection

You may request that processing of your data be restricted, or object to processing carried out on the basis of legitimate interests.

Withdrawal of Consent

Where processing is based on consent, you may withdraw that consent at any time without affecting the lawfulness of processing prior to withdrawal.

California Residents (CCPA/CPRA)

California residents have the right to:

- Know what personal information has been collected, used, disclosed, or sold

- Delete personal information (subject to certain exceptions)
- Correct inaccurate personal information
- Opt out of the sale or sharing of personal information (GetMeA does not sell or share personal information)
- Non-discrimination for exercising privacy rights

To exercise any of these rights, submit a request via [the support page](#) or by emailing support@getmea.org. Requests will be responded to within 30 days, or within the timeframe required by applicable law if shorter. Identity verification may be required.

10. Data Retention

- **Account and profile data:** Retained while the account is active. Deleted upon verified account deletion request.
- **Device session records:** Retained until deleted by the user within the app, or until the account is deleted.
- **OAuth identity records:** Retained while the account is active.
- **Support tickets:** Retained for operational and audit purposes.
- **Stripe billing references:** Retained as required for financial record-keeping.
- **OAuth login request/handoff records:** Short-lived; expire and are discarded automatically after use.

11. Security

Passwords are stored using a one-way cryptographic hash and are never accessible in plain text. Session tokens are randomly generated (64 hex characters) and are immediately invalidated on sign-out. All connections to the server are encrypted in transit (HTTPS/TLS). Stripe handles all payment card data and is PCI DSS compliant.

No method of electronic transmission or storage is 100% secure. While reasonable measures are taken to protect personal information, absolute security cannot be guaranteed.

12. International Users and GDPR

GetMeA is operated from the United States. If you access the service from outside the United States, your information will be transferred to and processed in the United States.

For users in the European Economic Area (EEA), United Kingdom, or Switzerland, the legal bases for processing personal information are:

- **Contract performance:** Processing necessary to create your account, authenticate you, and provide the service (account data, session data, billing).
- **Legitimate interests:** Processing for security, fraud prevention, and operational integrity (device fingerprinting, IP geocoding, sign-in tracking), where those interests are not overridden by your rights.

- **Consent:** Processing of optional profile fields (payment handles, YouTube links, profile photo, bio, website) that you voluntarily provide.

EEA, UK, and Swiss users have the right to lodge a complaint with their local supervisory authority. A list of EEA supervisory authorities is available at edpb.europa.eu.

13. Children's Privacy

GetMeA is not directed to children under the age of 18. Accounts for users under 18 years of age are not knowingly created. If such an account is identified, it will be deleted promptly.

14. Governing Law

This policy is governed by the laws of the State of Ohio, without regard to conflict-of-law principles. Any disputes arising under this policy shall be subject to the exclusive jurisdiction of the courts located in Toledo, Ohio, USA.

15. Changes to This Policy

This policy may be updated from time to time. The effective date at the top of this page reflects the date of the most recent revision. For material changes, GetMeA will make reasonable efforts to notify users (e.g., via in-app notification or email) before the changes take effect.

16. Contact

Privacy-related questions or requests can be submitted via [the support page](#) or by contacting:

Music App LLC

Email support@getmea.org
